Question : I am suffering from knee injury from last 3 months and i want to know when i will come out of it, whether i have to go for surgery or not

ASTROLOGICAL REPORT :

Dear sir,

Please find below the abstract of the astrological analysis and predictions based on the astrological study on your birth chart for your given birth details.

Method of study : Advanced KP stellar and Sublord theory:

You are Aries Lagna born.

You are currently running SATURN Dasa (till 11/5/2019)

Saturn lord of 11 (Badaka lord) is posited in 9 conjoined with lord of 5(cure) and Rahu.

Rahu is the 8th cuspal Sublord. All are traveling in the star of Sun lord of 5 in 9. Good. But Sun is in its own star and sub of Mercury.

Mercury is the main planet causing the defect. It is the lord of 6 (injury) posted in 8(defect). No planet in its star. But Sun and Mercury in its sub.

MARS Bukthi : 13/11/2012 to 22/12/2013

Currently you are running Mars (Karakas for injury) is running,

Further lagna lord Mars who is lord of 8 (defect) also in the sub of Mercury.

Your 8th cusp is ruled by Mars-Mercury and Rahu. They are well connected to 6,8,12,1 significations along with 5(cure). Rahu is in the star and sub of Sun and Saturn and is conjoined with them. All these Saturn, Sun and Rahu are posited in Capricorn sign which rules your knee area. And it indicates chances for defects or injuries in the leg area especially at the knee joints.

So the injury happened in the Saturn Dasa/Mars Bukthi/Saturn andra.

On detailed analysis, it is found you are bound to have injuries and defects.

The running Bukthi lord Mars denotes severe acute pain and also chances for surgery within this Bukthi

You are currently running MERCURY andra (between 2/6/2013 to 30/7/2013)

This shows chances for surgery in this period itself.

PREDICTIONS:

- YOUR CHART SHOWS SEVERE AFFLICTION AND BOUND TO HAVE INJURIES AND ALSO DEFECTS.
- THE RUNNING DASA AND BUKTHI ARE NOT FAVORABLE.
- YOU WILL HAVE TO UNDEGO SURGERY WITHIN THE RUNNING MARS BUKTHI (BEFORE END OF 2013 ESPECIALLY BETWEEN JULY TO OCT)
- THERE COULD BE SOME IMPROVEMENT IN YOUR HEALTH FROM JAN 2014.
- UNFORTUNATELY COMPLETE RECOVERY FROM THE INJURY IS NOT WELL SIGNIFIED. CHANCES FOR RETENTION OF SOME INJURY OR DEFECT WHICH COULD GIVE YOU TROUBLE ALWAYS
- YOU MUST BE UNDER MEDICAL ASSISTENCE AND YOU MAY GET SOME IMPROVEMENT IN YOUR HEALTH FROM 2014 JAN.ONWARDS
